# LED Vapor Proof Light

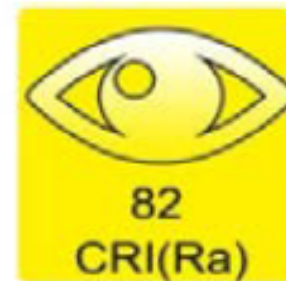

LOT-VP-25-4/LOT-VP-40-4  
LOT-VP-50-4/LOT-VP-75-4

Product Number	LOT-VP-25-4/LOT-VP-40-4/LOT-LL-50-4/LOT-LL-75-4
Lumen Output	3,125 - 5,000 - 7,800 - 9,750
Wattage	25W - 40W - 50W - 75W
Lumen Efficacy	125lm/w - 130lm/w
CCT	3000K - 4000K - 5000K
Dimensions	26 7/8" x 50 6/8" x 6 6/8" x 3 7/8"
Input Voltage	UNV = Universal 120-277 VAC HV = 347 VAC & 480 VAC
IP Rating	No Rating
LED Driver	Class II driver, with 0-10V or triac dimming
Certification	UL, DLC, FCC, ISO

# Product Description

The LED Vapor Proof Light provides energy-efficient lighting designed for environments which require a water-tight seal such as car washes, gas stations, parking garages, refrigerated storage centers, restaurant freezers, supermarkets, warehouses, and various industrial facilities. The water-tight, gasketed seal and tamper resistant mounting clips make this fixture ideal for wet locations and an excellent replacement for outdated fluorescent lights. Available in a variety of wattages and color temperatures, this light has high quality LED chips which maintain efficiency, heat dissipation, stability, and lumen output & a Class II driver with 0-10V or Triac dimming.
