# LED Vaporproof Fixture

LOT-VP-25-5/LOT-VP-40-5

Product Number	LOT-VP-25-5/LOT-VP-40-5
Lumen Output	3,250 - 5,200
Wattage	25W -40W
Lumen Efficacy	130lm/w
CCT	3000K - 4000K - 5000K
Dimensions	25 2/8" x 49 2/8" x 4 5/8" x 3"
Input Voltage	UNV = Universal 120-277 VAC HV = 347 VAC & 480 VAC
IP Rating	IP66
LED Driver	Class II driver, with 0-10V or triac dimming
Certification	UL, DLC, FCC, ISO

# Product Description

The LED Vaporproof Fixture provides energy-efficient lighting designed for environments which require a water tight seal such as restaurant freezers, refrigerated storage centers, supermarkets, pharmaceutical warehouses, car washes, gas stations, parking garages and various industrial properties. The water-tight, gasketed seal and tamper resistant mounting clips make this fixture ideal for wet locations and an excellent replacement for outdated fluorescent lights. Available in a variety of color temperatures, this vapor proof light has high quality LED chips which maintain efficiency, heat dissipation, stability, and lumen output & a Class II driver with 0-10V or Triac dimming.
