

Automatic Step Down Transformer

LOT-ACC-TR-1

Automatic Step Down Transformer

LOT-ACC-TR-1

Product Description

This Automatic Step-Down Transformer utilizes common voltage to step down 480 volts to 277V single-phase power. This non-isolated Autotransformer is designed for use with T5, T8, LED, CFL, or Electronic HD Ballasts operating at 277V Input Voltage. This product is thermally protected and has a Class A insulation rating with a 5-year limited manufacturer warranty.

Product Number	LOT-ACC-TR-1
Input Voltage	480 or 347 VAC +/- 10%
Input Frequency	60 Hz
Output Voltage	250 V
Maximum Load	250 VA
Maximun Output Current	0.8A
Case Dimintions (LxHxW)	100 mm x 47 mm x 57 mm
Mounting Dimensions	95 mm
Standard Lead Length	200
