LED Flood Pole Light

LOT-AL-460-31

Product Number	LOT-AL-460-31
Lumen Output	57500lm - 87000lm
Wattage	460W - 600W
Lumen Efficacy	125-145lm/w
CCT	3000k - 4000k - 5000k
Beam Angle	Type II, Type IV, Type V, 90° 120°
Input Voltage	100-277v 277-480v
IP Rating	IP65
Size	13 3/8x25 1/2 x 3 3/4 inch

Product Description

The LED Flood Pole Light is often used in parks, university campuses, city centers, tennis courts, residential communities, and commercial plazas to replace halogen style lights. This product comes with an outdoor-rated LUMI-LEDS LED chip which provides stable color consistency. The built-in aluminum heat sink provides heat management, allowing for a long lifespan. The LED Flood Pole Light is built for outdoor use as it is waterproof with strong aluminum housing. Optional features such as various mounting options, motion sensor, and daylight sensor controls are also available.
