LED Vapor Proof High Bay

LOT-BAY-100-18/LOT-BAY-150-18

Product Number	LOT-BAY-100-15/LOT-BAY-150-18
Lumen Output	13,500 - 20,250
Wattage	100W - 150W
Lumen Efficacy	135lm/w
CCT	3000K - 4000K - 5000K
Dimensions	52 1/8" x 14 3/8" x 4 7/8"
Input Voltage	UNV = Universal 120-277 VAC HV = 347 VAC & 480 VAC
IP Rating	No Rating
LED Driver	Class II driver, with 0-10V or triac dimming
Certification	UL, DLC, FCC, ISO

Product Description

The LED Vapor Proof High Bay provides energy-efficient lighting designed for environments which require a water-tight seal such as car washes, gas stations, parking garages, refrigerated storage centers, restaurant freezers, supermarkets, warehouses, manufacturing facilities and various industrial properties. The water-tight, gasketed seal and tamper resistant mounting clips make this fixture ideal for wet locations. This fixture comes in 2-foot and 4-foot lengths and is available in a variety of color temperatures. It comes with a Class II driver with 0-10V or Triac dimming while the high quality LED chips maintain efficiency, heat dissipation, stability, and lumen output. The lifespan is 50,000 hours.
