LED Up Down Light

Part Number	LOT-CL-5-10-CW
Lumen Output	1,150lm
Wattage	16 (5X2)W
Lumen Efficacy	115lm/W
CCT	3000-3500K, 4000-4500K, 6000-6500K
Beam Angle	15°/30°/60°/90°
Input Voltage	100-240Vac 50-60Hz PF 0.9
IP Rating	IP 65
LED Driver	Meanwell
Certification	UL, CE, PSE, SAA, RoHS

Details

LED Technology

This contemporary sconce light is excellent for buildings, pillars, and other similar structures. This patented wall light has a unique body structure sealing it for waterproof performance function, making it adaptable for outdoor lighting and designs. The product has a light body that has electrostatic plastic coating as well as a lampshade that has toughened glass, increasing its resistance against impact and friction. This wall light utilizes the CREE LED light source, providing stable color quality. Utilizing mercury-free LED lighting technology, this LED Cylinder Light has a lifespan of 50,000 hours.
