Certifications	FCC, CE, RoHS, UL, DLC	

Light Distribution Curve & Structure Features

PRODUCT DESCRIPTION

The LOT-FL-20-9 series is perfect for billboards, exterior architectural lighting, as well as tree or ornament lighting. Built for the outdoors, this waterproof LED fixture has a durable die-cast aluminum body. The integrated heat sink manages the light's thermal dissipation, ensuring a long lifespan of over 50,000 hours. The LED Knuckle Flood Light uses a CREE LED light source which provides intense, bright lighting that does not emit harmful UV lights.
