Product Description

The Contemporary Hanging LED Light is an excellent lighting option for offices, restaurants, hotels, commercial properties, and various other locations. It can be suspended, surface mounted, or recessed and it also can be customized to a desired length and look to suit your space. This sleek fixture provides an instant-on, even wash of light with a wide angle and glare reduction. The high quality LED chips maintain efficiency, heat dissipation, stability, and lumen output. It contains a built-in surge protector and class II driver with 0-10V or Triac dimming and a lifetime of 50,000 hours. Optional features such as dimming options and interchangeable color options are also available.
