LED Double Direction Suspension Light

LOT-LL-40-28/ LOT-LL-60-28

Product Number	LOT-LL-40-28/ LOT-LL-60-28
Lumen Output	4,200 - 6,300
Wattage	40W - 60W
Lumen Efficacy	105lm/w
CCT	3000K - 4000K - 5000K
Dimensions	49 2/8" x 14 5/8" x 11"
Input Voltage	UNV = Universal 120-277 VAC HV = 347 VAC & 480 VAC
IP Rating	No Rating
LED Driver	Class II driver, with 0-10V or triac dimming
Certification	UL, DLC, FCC, ISO

Product Description

The LED Double Direction Suspension Light is a fantastic lighting option for offices, commercial businesses, public buildings, hotels, restaurants, and various other properties. This light is designed to be suspended while providing an instant-on, even wash of light with a wide angle and glare reduction for office computers. Finished with a high-quality enamel, this light yields excellent reflection while the high quality LED chips maintain efficiency, heat dissipation, stability, and lumen output. The product contains a built-in surge protector and class II driver with 0-10V or Triac dimming and a lifetime of 50,000 hours. Optional features such as dimming options and interchangeable color options are also available.
