LED Technology

The LED Down Lights can emit the perfect glare-free lighting for outdoor and indoor locations such as retail stores, lobbies, schools, clinics, houses, offices, and centers. This product has a high light intensity and high efficacy, so it delivers an intense but pleasant lighting that will encompass a wide area. This product also comes with the CITIZEN LED chip, so the light it produces is bright and uniform. This light is designed with cinquefoil holes for convective dissipation, so it guarantees its long lifespan of more than 40,000 hours. This product also has several built-in drivers that allows for multiple control options.
