LED Small Solar Sconce

LOT-SOL-1-3

| | |
|----------------|-----------------------------------|
| Product Number | LOT-SOL-1-3 |
| Wattage | 1W |
| Lumen Output | 200 |
| Power | 5.5V monocrystalline solar panels |
| Lighting Time | 3-5 nights, 12 hours per night |
| CCT | 3000-4000-5000K |
| Product Size | 376mm x 376mm x 156mm |
| IP Rating | IP65 |
| Certifications | CE, RoHS, IES, ISO |

Product Description

The LED Small Solar Sconce is a compact solar fixture which is perfect for commercial and residential properties such as condominiums, hotels, and retail shopping centers. This contemporary, eco-friendly light is powered by a built-in monocrystalline solar panel and a 2.6Ah 3.7V Lithium battery. The LED Small Solar Sconce emits light for up to 12 hours after charging for 6-7 hours in the bright sunlight; starting at full power for 5 hours and then operating at half power for 7 hours to dawn. Solar technology is perfect for sunny Florida as an efficient form of renewable energy. LED lighting technology is mercury-free and UV-free, providing a safe and efficient alternative to traditional lighting technologies.
