LED Solar Street Light (with Detachable Battery)

LOT-SOL-30-4

Product Number	LOT-SOL-30-4
Wattage	30W/40W/50W/60W/70W/80W
Lumen Output	3900/5200/6500/7800/9100/10400
Solar Panel	18V 45W/55W/65W/75W/85W/95W monocrystalline
Lithium Battery	12V 26AH/30AH/36AH/39AH/44AH/48AH
Solar Charging Time	6-8 Hours in bright sunlight
Discharging Time	>36H
CCT	3000k/4000k/5000k
IP Rating	IP65
Certification	CE/RoHS/ISO
Warranty	5-Year Limited Manufacturer Warranty
Functions	PIR Sensor/Pathway Indicator/APP mobile Control/ Detachable battery

Product Description

The LED Solar Street Light (with Detachable Battery) is an eco-friendly light fixture is used in commercial plazas, city centers, university campuses, residential communities, community parks, and roadways to provide quality lighting without wasting unnecessary electricity. Complete with PIR Sensor, detachable battery, and mobile application control, this light is part of the new wave in lighting technology. Rated IP16 for outdoor use, this light has multiple certifications and comes with a 5-Year Limited manufacturer warranty. The monocrystalline solar panel is in-laid directly in the top of the fixture and works with a Lithium Battery to provide hours of working time.
