

LED Solar Wall Light

LOT-SOL-5-2

LED Solar Wall Light

LOT-AL-100-32

Product Number	LOT-SOL-5-2
Wattage	4.7W
Lumen Output	500
Power	5.5V monocrystalline solar panels
Lighting Time	3-5 nights, 12 hours per night
CCT	3000-4000-5000K
IP Rating	IP65
Certifications	CE, RoHS, IES, ISO

Product Description

The LED Solar Wall Light is a contemporary solar fixture which is perfect for commercial and residential properties such as condominiums, hotels, and retail shopping centers. This eco-friendly light is powered by a built-in monocrystalline solar panel and 5.2Ah 3.7V lithium battery. After charging for 6-7 hours in the bright sunlight, LED Solar Wall Light emits light at full power for 5 hours and then operate at half power 7 hours to dawn, providing light for up to 12 hours. Solar technology is an efficient form of renewable energy, perfect for the bright Florida sun. The LED technology is UV-free and mercury-free, providing a safe and efficient alternative to traditional lighting.
