Light Distribution

Details

LED Technology

This LED Street Light comes with a glare-free lighting that can be perfect for roadways, freeways, highways, parking lots, off-street areas, and paved roads. This street light comes with a beautiful appearance, as well as a design that allows effective heat conduction. This item is housed in aluminum for durability as well as a powdered coat finish for anti-static properties. This product uses the LUXEON LED chip to provide a beautiful, strong lighting.
