LED Technology

The LED Track Light can provide the ideal glare-free lighting for several private and public areas such as retail stores, galleries, exhibits, workshops, offices, and restaurants. This product has a patented technology and design that guarantees low temperature operation and high thermal dissipation so that it will ensure its over 40,000 hours of lifespan. This product also comes with an anti-glare function and an accurate beam angle so that it can provide comfortable LED lighting with maximum accuracy. This product also has a built-in non flicker driver as well as an aluminum heat sink.
