Certification	UL, CE, PSE, SAA, RoHS

Details

LED Technology

The DIM 1LED 10W WATER-DROP TRACK LIGHT is a UV-free lighting that is ideal for shops, museums, galleries, schools, hotels and homes. This track light is a CAMEA design with anti-glare function of over 80 LPW. It is designed to be a self-cleaning product with invisible wires and is available in white, silver, and black finishes. This track light is adjustable with 350 degrees rotation and 90 degrees pivot. It also comes with a dimmable driver that has a dimming range from 100% to 10% and can be changed as preferred.
