

# Garage Light

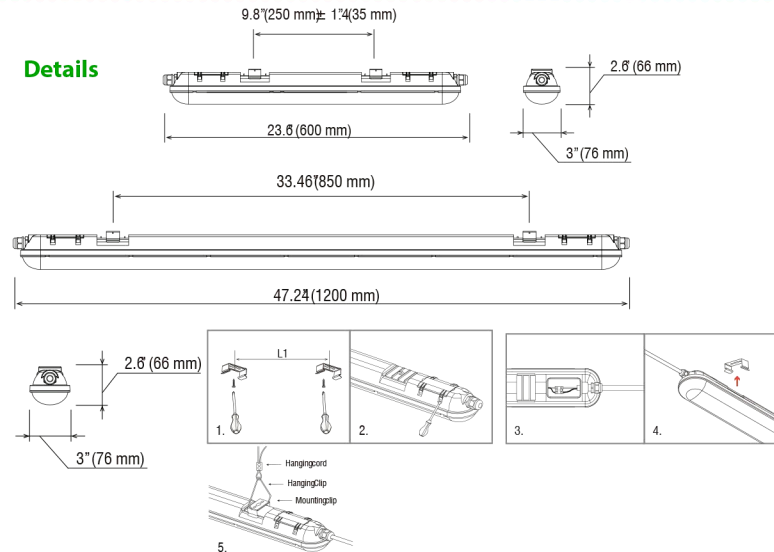

8' Vapor Proof Light

## 8' Vapor Proof Light

Part Number	LOT-VP-60-3
Lumen Output	5,100 lm
Wattage	60W
Lumen Efficacy	85 lm/W
CCT	5000K
Beam Angle	122°
Input Voltage	100-277 Vac PF 0.95
IP Rating	IP 65
LED Driver	Meanwell
Certification	UL, CE, PSE, SAA, RoHS

### Details

### LED Technology

The 8 foot LED Garage Light can be used for various outdoor locations such as garages, parking lots, under canopy lights, factory workshops, harbors, and power stations. This UV-free lighting is certified by UL, cUL, CE, CB, SAA and DLC. It also has a light source that adopts brand chip and ensures a general lifespan of more than 25,000 hours. Both the light source and the driver of this model adopt a modular design, so it is easy to replace and adjust. It also comes with a fiberglass housing that is anti-aging, anti-corrosion, and high temperature-resistant.
